### DETAILED ACTION

Claims 1-35 are pending in this application. The Office received and entered an amendment on 12/30/01, dated paper #8A.

#### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1. and PCT Rule 13.2.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

PCT Rule 13.1 states that the international application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept (requirement of unity of invention).

PCT Rule 13.2 state that unity of invention referred to in Rule 13.1 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features.

Annex. B, Part 1(b), provides that "special technical feature" mean that technical feature, which, as a whole, define a contribution over the prior art.

Group I, claim(s) 1, 5-9, 11-17 and 35, drawn to methods of making and compounds.

Group II, claim(s) 2, 10, 18-22 and 35, drawn to methods of making.

Group III, claim(s) 3, 23-32 and 35, drawn to methods of making.

Group IV, claim(s) 4, 33-42 and 35, drawn to methods of making.

The inventions in groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

Art Unit: 1626

corresponding technical features that defines a contribution over the prior art. The compounds and methods of making said compounds in group I and the methods of making in each of the inventions of groups II, III and IV in this application are independent and distinct, differing from each other materially in structure and element. Each of the groups set forth supra represents a distinct method of making the various heterocyclic-ring containing compounds, using materially different reactants, reagents and reaction conditions, etc. Therefore, there is a lack of unity among the above identified groups because there is no significant structural element shared by all of the alternatives. Prior art anticipation of one would not render the other obvious. Should applicant traverse on the ground that the inventions are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that that is the case. Accordingly, unity of invention is considered to be lacking and restriction of the invention in accordance with the rules of unity of invention is considered to be proper.

A telephone call was made to Ms. Elaine Ramesh on 08/15/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

### ***Telephone Inquiry***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer C. Murphy, whose telephone number is (703) 305-0159. The examiner can normally be reached on Monday-Friday from 8:00 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Joseph K. McKane, can be reached at (703) 308-4537. The Unofficial fax phone number for this Group is (703) 308-7921. The Official fax phone numbers for this Group are (703) 308-4556 or 305-3592.

When filing a FAX in Technology Center 1600, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communications with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.
